

Evening (Summer)

1. Check the coop and make sure there are no critters (or anything else) inside.
2. Check the food in the trough and fill as needed (from the metal trash can).
3. If the water level in either water trough (inside or outside) is low, fill with fresh water from the rain barrels. Do this by opening the spigot on the left barrel and then the spigots (one at a time) at the troughs. Close ALL spigots when done.
4. Check the nesting boxes (and elsewhere!) for eggs and place them in a carton.
5. If they aren't already inside, round up the girls into the coop, counting as you go.
6. Close the chicken hatch and latch it inside the coop.
7. Log the date and time of day, number of chickens, and number of eggs collected in the Peeps Notebook. Note any injuries, illness, or anything else that doesn't look quite right.
8. Take home your share of eggs. Leave the rest in a carton for the next shift.
9. Close the coop's back door (the human door), latch it, and lock it with the padlock.
10. Close and latch the gate when you leave the chicken yard.

GENEVA PEEPS

LOCAL EGGS FROM LOCAL LOVE
